# Culture and Organization

## EDITORS

**Jo Brewis**, *University of Leicester, UK* and  
**Annette Risberg**, *Copenhagen Business School, Denmark*

*Culture and Organization* features refereed articles that offer innovative insights and provoke discussion. It particularly offers papers which employ ethnographic, critical and interpretive approaches, as practised in such disciplines as organizational, communication, media and cultural studies, which go beyond description and use data to advance theoretical reflection. The Journal also presents papers which advance our conceptual understanding of organizational phenomena.

Theoretically, *Culture and Organization* bridges the arts and humanities and the social sciences, and welcomes papers which draw on the disciplinary practices and discourses of philosophy, the performing arts, literary and art criticism and historical analysis, for example, and applies them to the organizational and relevant social arenas.
